Experience

Samsung PRISM R&D Institute

R&D Intern

Sept 2025 – Present

Bangalore, Karnataka

- Developed an AI-powered visual guide generation system for the “Guide Weave” project using **RAG architecture** to retrieve text and images from a knowledge base, integrated a **locally deployed LLM** for response generation, and conducted **performance benchmarking** to optimize accuracy and latency.

Education

IIIT Naya Raipur

B.Tech in Electronics and Communication

8.2/10

Aug. 2023 - Present

Projects

Voice LMS

Repo 📄 Live ↗

Next.js 15 | React 19 | Supabase | Clerk | Gemini AI

- Developed a full-stack **AI-powered voice-based learning platform** enabling real-time conversational tutoring using speech recognition and synthesis.
- Integrated **Google Gemini Flash 1.5** and secure authentication with **Clerk**, supporting multi-turn conversations with low-latency responses.
- Designed a responsive, accessible UI and automated deployment workflows, reducing manual maintenance by **80%**.

MERN ChatApp

Repo 📄

Socket.IO | React 18 | Express.js | MongoDB | Zustand

- Built a **real-time chat application** with private and group messaging using **Socket.IO**, supporting high-concurrency communication.
- Optimized performance with **IndexedDB message caching** and efficient global state management, improving chat load times by **45%**.
- Implemented **JWT-based authentication**, media sharing, emoji reactions, and group management features.

MindEase

Repo 📄 Live ↗

Next.js 15 | MongoDB | Google Gemini

- Developed a **mental health self-assessment platform** with structured diagnostic flows and severity-based testing.
- Integrated a **Gemini-powered AI chatbot** to provide real-time guidance and mental wellness support.
- Built personalized dashboards with progress tracking and streaks, increasing user engagement by **35%**.

Achievements & POR

- Solved **600+** coding problems across platforms including LeetCode, Codeforces (**1300+** rating), and CodeChef (**3 star**).
- Secured **2nd Runner-Up** in E-Cell Hackathon – an inter-college coding competition.
- Served as a core member of the college **Coding Club**, organizing a **3-day intra-college coding fest** comprising **13 competitions**—with participation from over **200+ students**.

Technology

Languages: JavaScript, TypeScript, Java, Python, C

Frontend: React 19, Vite, Tailwind, Shadcn/UI, DaisyUI

Backend: Node.js, Spring Boot, Express, Firebase, Appwrite

Databases: MongoDB, PostgreSQL, NeonDB, Supabase, Convex

Authentication: JWT, Clerk, Spring Security, Role-Based Access Control

Other: Next.js, React Native, Zustand, Socket.IO, Docker, Kubernetes, Git
